

An amazing Villa of 400 m² including terraces. Occupying 8.000 m² of land in a unique position at the Cala Tarida Mountain, the property sits within the forest.

Featuring pool, space for at least 5 cars, 4 bedrooms and 3 bathrooms, home automation security system and panoramic sea views from rooms and living room.

The villa sits on top of one of Ibiza's most exclusive areas and follows the landscape's natural contours. The design process was very specific, and the conception of volumes and the layout were adapted to the panoramic sea views and fantastic full sunset!

Two level encapsulate a precise functional program: garden, terraces, swimming pool, living and dining room, bathrooms, a fully equipped kitchen, 3 suite bedrooms.

A comfortable and spacious open-plan living room and dining room leads to a terrace, where the interior and exterior become one. The floor-to-ceiling glass allows light and color to flood the villa as well as maximizing the panoramic views of the garden and Mediterranean Sea.
